

### Career Interview Worksheet

Use the following questions to interview 2-4 people (parents, grandparents, aunts, uncles, neighbors, etc) to gain knowledge about the types of jobs they perform and how science and math are related to their professions.

Name:

Job Title:

1. How would you describe the job you perform?
2. What type of education do you have to have to gain an entry-level position in your profession?
3. Do you use science and/or math in your job? If so, in what capacity?
