Elaboration: How important is a decimal place? Period ____ Name _____ Date _____ On January 18, 1897 a bill was brought to the Indiana legislature by Dr. Edwin J. Goodwin to legally change the value of pi from 3.141592654......to exactly 3.0. Is this a good idea or a bad idea? Using data from your experiment, write an editorial supporting your opinion and persuading the legislature to vote your way.
