**Bridges (orange tiles):** Click on each one of the orange tiles to open photographs of bridge construction on the Blue Ridge Parkway. What do you notice about the photographs? Use these questions to help guide your group discussion.

- Do you think it was easy to build the bridges on the Blue Ridge Parkway? Why or why not?
- What sort of work do you think had to be done in order to build the bridges?
- Read the description below the photographs to see if you can learn more about what's going on in the picture.
- Is there anything else you notice about these photographs?

**Tunnels (blue tiles):** Click on each one of the blue tiles to open photographs of tunnels on the Blue Ridge Parkway. What do you notice about the photographs? Use these questions to help guide your group discussion.

- Do you think it was easy or hard to build the tunnels for the Blue Ridge Parkway? Why?
- What sort of work do you think had to be done in order to build the tunnels?
- Why do you think they built tunnels through mountains instead of building the on top of the mountain?
- Read the description below the photographs to see if you can learn more about what's going on in the picture.
- Is there anything else you notice about these photographs?
